§ 552.25

(3) In a manner that causes unnecessary physical pain or extreme discomfort.

(4) To secure an inmate to a fixed object, such as a cell door or cell grill, except as provided in § 552.24.

(i) Medication may not be used as a restraint solely for security purposes.

(j) All incidents involving the use of force and the application of restraints (as specified in § 552.27) must be carefully documented.

§ 552.23 Confrontation avoidance procedures.

Prior to any calculated use of force, the ranking custodial official (ordinarily the Captain or shift Lieutenant), a designated mental health professional, and others shall confer and gather pertinent information about the inmate and the immediate situation. Based on their assessment of that information, they shall identify a staff member(s) to attempt to obtain the inmate's voluntary cooperation and, using the knowledge they have gained about the inmate and the incident, determine if use of force is necessary.

[59 FR 30470, June 13, 1994]

§ 552.24 Use of four-point restraints.

When the Warden determines that four-point restraints are the only means available to obtain and maintain control over an inmate, the following procedures must be followed:

(a) Soft restraints (e.g., vinyl) must be used to restrain an inmate, unless:

(1) Such restraints previously have proven ineffective with respect to that inmate, or

(2) Such restraints are proven ineffective during the initial application procedure.

(b) Inmates will be dressed in clothing appropriate to the temperature.

(c) Beds will be covered with a mattress, and a blanket/sheet will be provided to the inmate.

(d) Staff shall check the inmate at least every 15 minutes, both to ensure that the restraints are not hampering circulation and for the general welfare of the inmate. When an inmate is restrained to a bed, staff shall periodically

rotate the inmate's position to avoid soreness or stiffness.

(e) A review of the inmate's placement in four-point restraints shall be made by a Lieutenant every two hours to determine if the use of restraints has had the required calming effect and so that the inmate may be released from these restraints (completely or to lesser restraints) as soon as possible. At every two-hour review, the inmate will be afforded the opportunity to use the toilet, unless the inmate is continuing to actively resist or becomes violent while being released from the restraints for this purpose.

(f) When the inmate is placed in four-point restraints, qualified health personnel shall initially assess the inmate to ensure appropriate breathing and response (physical or verbal). Staff shall also ensure that the restraints have not restricted or impaired the inmate's circulation. When inmates are so restrained, qualified health personnel ordinarily are to visit the inmate at least twice during each eight hour shift. Use of four-point restraints beyond eight hours requires the supervision of qualified health personnel. Mental health and qualified health personnel may be asked for advice regarding the appropriate time for removal of the restraints.

(g) When it is necessary to restrain an inmate for longer than eight hours, the Warden (or designee) or institution administrative duty officer shall notify the Regional Director or Regional Duty Officer by telephone.

§ 552.25 Use of less-than-lethal weapons, including chemical agents.

(a) The Warden may authorize the use of less-than-lethal weapons, including those containing chemical agents, only when the situation is such that the inmate:

(1) Is armed and/or barricaded; or

(2) Cannot be approached without danger to self or others; and

(3) It is determined that a delay in bringing the situation under control would constitute a serious hazard to the inmate or others, or would result

in a major disturbance or serious property damage.

(b) The Warden may delegate the authority under this regulation to one or more supervisors on duty and physically present, but not below the position of Lieutenant.

§ 552.26 Medical attention in use of force and application of restraints incidents.

(a) In immediate use of force situations, staff shall seek the assistance of mental health or qualified health personnel upon gaining physical control of the inmate. When possible, staff shall seek such assistance at the onset of the violent behavior. In calculated use of force situations, the use of force team leader shall seek the guidance of qualified health personnel (based upon a review of the inmate's medical record) to identify physical or mental problems. When mental health staff or qualified health personnel determine that an inmate requires continuing care, and particularly when the inmate to be restrained is pregnant, the deciding staff shall assume responsibility for the inmate's care, to include possible admission to the institution hospital, or, in the case of a pregnant inmate, restraining her in other than face down four-point restraints.

(b) After any use of force or forcible application of restraints, the inmate shall be examined by qualified health personnel, and any injuries noted, immediately treated.

[61 FR 39801, July 30, 1996]

§ 552.27 Documentation of use of force and application of restraints incidents.

Staff shall appropriately document all incidents involving the use of force, chemical agents, or less-than-lethal weapons. Staff shall also document, in writing, the use of restraints on an inmate who becomes violent or displays signs of imminent violence. A copy of the report shall be placed in the inmate's central file.
